Press Release

For immediate release

Elkin Manufacturing, Inc. approves first ever Mobile Mixer Wash, Wax, and Concrete Remover specifically formulated for mobile concrete mixers.

Elkin Manufacturing, Inc. working in conjunction with Environmental Manufacturing Solutions, LLC has approved an entirely new product, designed to clean and wax mobile concrete mixers.

Elkin Mobile Mixer Wash, Wax, and Concrete Remover has been tested at Elkin Manufacturing factory in Indiana, PA. It has been shown to safely and easily remove concrete residue and all dirt accumulations. In addition, Elkin Mobile Mixer Wash has been specially formulated to address the particular requirements for cleaning and maintaining a mobile mixer such as:

- Greater amounts of grease and oil cutters
- Natural wax to coat and protect mixer
- UV Ray deterrents
- Rubber and plastic conditioners
- Safe on all glass & metal surfaces

Elkin Mobile Mixer Wash is biodegradable, needs no neutralizers, or personal protection gear. Elkin Manufacturing, Inc. believes this product will help our customers keep their mixers in "like new" condition for many years.
